III. Descriptive of possible bugs

(Bug example)

The autoplay stop button does not work

Severity:

S1- Critical

Device/Operating System:

Windows 10 pro,64 bits
Chrome, 64bits - 105.0.5

Expected Result: When the user clicks to stop autoplay, the game should end the automatic rounds and stop betting.

Result found: When the user presses the button to stop autoplay, the rounds continue betting, causing the game "locking" and the user to lose money.

Step by step:

Choose a bet value of 100.00;
Select the number 100 rounds for autoplay;
Then click the play button to start the game;
After that, select the stop autoplay button.
