Test Project - Erik the Red

I.   Product description and business rule:

Erik the red is a free casino slot machine game that provides 5 reels and 20 distinct paylines. This game can be played on computers and mobile devices (IOS and Android).

There are 6 types of medium and low symbols in the game and 3 extended wilds in the game, each with a paytable.

The minimum bet is just 0.10 (€), while the maximum possible bet is 100 (€).
The lowest value symbols are represented by Viking items.
High-value symbols are represented by 3 characters, Wild, Erik, and Helga.

The payment method will be: Wild Value[1.0] * (Coin value), where the characters value varies according to the number of times it is repeated.

Wild symbol: The wild symbol substitutes for all symbols on the reels to form winning combinations on the payline.

Paylines:

Prizes are evaluated consecutively on a payline, starting from the first reel on the left.

The returns are displayed in EURO (€) as this is the game currency.

IV.   Opinion about the game

A betting simulator game, simple and easy to play where it presents several ways of winning combinations, it has a good animation with colors, characters, and a soundtrack that represents the Vikings universe.
